The miners of this county are all on a strike. The sympathy of the striking miners elsewhere is given as the cause.

What, this Grand Jury and the "whipping brother" generally take a look at the outbuildings and surroundings of the county's property in Hartford? What do you think of the outbuildings? And that court house fence, isn't that an attractive picture? Will you not suggest to your Magistrate that the smallest particle of county pride demands some improvements? We think you will.

Now following life sketch is going the rounds of the press and there is such a fine vein of truthful humor in it that we give it space. You will catch the picture and have small trouble in applying it.

A man went into a store and asked if he could have a cigar. The proprietor, who had just found a nest of new born mice in the coffee grinder, told him he could have a cigar if he would him who he didn't go to a hotel. The man replied, "I am afraid to go there, for I am a crook, and the dog said to get a place to rest, and I see you are a crook, too." "I know you don't find a quiet place, and with that I settled back in his chair and was soon sound asleep, build a nest in the case here."

What an eccentric season this has been, to be sure, with its May March and its November May. Sunday snow fell to a depth of eight inches at Beattyville, Ky., and at Harrodsburg, Stanton, Georgetown, Carlisle and many other points in the State it was almost or quite as bad. Fortunately it has remained cloudy and wet through this last visit of Boreas and as better weather may now be expected it is thought no serious damage has been done by the cold, beyond the still given a very late and the breaking down of many trees and vines by the weight of the snow. Such unusual weather has not been known in Kentucky before.

Many of Dr. Haynes' old pupils in this county would be glad to meet him again and we hope his return referred to below will be held here. Dr. Haynes, after many years of usefulness in the public schools has recently been elected Superintendent of schools in McLean. He is an enthusiastic school worker and a good man. The Calhoun *Ledge* says of him:

It has been suggested to Dr. J. E. Haynes that he have a reunion of all his old pupils in this county who have not been named. Either Whiteside or Harrodsburg would be a suitable place for such a meeting.

The good news would be more gratifying to him than any other, as he taught his first school three miles from Whiteside in 1859. He is now one of the oldest teachers in the State.

There will in a few days be provided for Hartford's criminals a rock pile, where their hours of meditation—perchance penitence—may be made valuable by the amount of read material they furnish. There is no room in our jails for the custom our juries have of herding prisoners in the county jail where they are rendered sick and deformed by close confinement, and their time is lost to the labor of the country. May we hope that the court and the juries the present term of our court will see to it that the criminals they punish shall be made available to the public roads.

This can be done by the juries and, as far as we are able to learn, was fairly beaten. The talk of doing this has been made with any Republican can easily be polished to find a place in a good Democratic journal as the *Messenger*. Judge Reeves will be elected by a large majority over Hon. John F. Land, Judge L. D. Guffy, or any other venturesome politician who may oppose him.

MONDAY there was more than one man seen drunk upon the streets of Hartford. The present Grand Jury

knows who these men were and if we do not badly mistake the spirit and temper of this important body they will know where these drunks met their whiskey. Cleverness of the Grand Jury, we are looking for. The sentiment of the community is one of overwhelming hostility against the sale of whiskey. The people as a rule are ready to do what they can to sid you in your investigations, and they want to see your work well done. Make every man who buys whiskey in Ohio county purges his soul until it is as black as night or locate and punish the men who defile the law. We hope as we believe that you will do this, and when your part is done then do you join us in demanding that the Petit Jurors do their full duty in this matter.

ALONG with the better element of Kentucky's citizens we desire the defeat of Col. Breckinridge for Congress from the Ashland District, but at present we can hardly say we hope for it. The committee has been appointed by the United States Senate to investigate charges of bribery which purges his soul until it is as black as night or locate and punish the men who defile the law. We hope as we believe that you will do this, and when your part is done then do you join us in demanding that the Petit Jurors do their full duty in this matter.

With this, Grand Jury and the "whipping brother" generally take a look at the outbuildings and surroundings of the county's property in Hartford? What do you think of the outbuildings? And that court house fence, isn't that an attractive picture? Will you not suggest to your Magistrate that the smallest particle of county pride demands some improvements? We think you will.

CONSTANT efforts on the part of a few men, while they have protected the telephone monopoly have largely expired and the convenience of the instrument is soon to be in reach of everybody. We some time ago gave an outline of the projected line from Nashville to New York, to embrace most of the Ohio valley cities, including Hartford. Such an enterprise would be most welcome here and seems now to be among the certainties, as the *Owensboro Messenger* says:

Mrs. J. E. Calhoun, president of the Cumberland Valley Telephone Co., and Noah Hunter, of Rockport, came to our town and arrested J. Miller, controller of Echols, who had just entered town a short time before his departure. He was immediately confined to Rockport, and on the way acknowledged his guilt and ready to confess to one of the officers.

### BRIBERY IN THE SENATE.

A committee has been appointed by the United States Senate to investigate charges of bribery which purges his soul until it is as black as night or locate and punish the men who defile the law. We hope as we believe that you will do this, and when your part is done then do you join us in demanding that the Petit Jurors do their full duty in this matter.

EVANSVILLE, Ind., May 17, 1894.

Dear Sir:—I am enclosing a copy of our Rough River navigation to you for your information.

It is said that efforts have been made to bribe some of the men of the country's law-makers to vote against the Wilson tariff bill. Offers of large sums of money have been made for votes against the measure. The effort to thus secure the defeat of the measure is no doubt due to those who for so many years have grown richer and richer through the unjust tributes which our tariff laws have compelled us to pay.

Presently, a bill which is designed to move in its efforts to dispose of the tariff measure, and the many amendments increasing the protective duties which it has added to the Wilson bill, that body is not without more or less suspicion being directed toward it already.

Speaking of the matter the *Louisville Post* very truly says:

One million dollars is a sum of money which would buy a dozen interests which could well afford to spend that sum annually to retain the McKinley bill given them. The wooden barges, the cotton boats, the steel boats, the iron boats, all under the Gorman bill, will give them a profit of a million dollars a year. Respectfully yours,

M. HENRY, Ky.

May 31, 1894.—To the Hon. John G. Grimes and Noah Hunter, of Rockport, and our town and arrested J. Miller, controller of Echols, who had just entered town a short time before his departure. He was immediately confined to Rockport, and on the way acknowledged his guilt and ready to confess to one of the officers.
